
Web Hosted Service

The Web Hosted Service is a secured, outsourced database management solution that allows ChemADVISOR to host your (M)SDS databases on our servers.

Features

- Host customer specific and/or ChemADVISOR databases
- Secure access via customer's Intranet or remotely via the Internet, dependent on customer requirements
- Easy to use search engine for retrieving (M)SDSs online
- Basic and advanced ("and/or") searches across databases
- Scanning and indexing service for vendor (M)SDSs

Benefits

- Efficient (M)SDS administration and access
- Guaranteed retrieval of (M)SDS data regardless of location
- Reduced IT dependency and improved data quality
- (M)SDS additions and data updates seamlessly to the employee or manager
- Library of (M)SDS databases as defined by customer needs
- No employee training required for browser-literate users
- Expanded level of reliable service for current ChemADVISOR customers

Critical Issues Solved

- Provides a global solution for hazard communication
- Updates and maintains chemical health & safety data
- Reduces IT costs and dependence
- Completes and standardizes (M)SDS data for employees or customers
