
LOLI Desktop®

LOLI Desktop was developed by ChemADVISOR, Inc., to enable users to efficiently and effectively research and utilize global regulatory environmental, health, safety, and transportation information available in the LOLI Regulatory Database.

LOLI Desktop Features

LOLI Desktop allows you to:

- ◆ Search the database using:
 - ◆ CAS number
 - ◆ Inventory identification number
 - ◆ Chemical name
(including foreign language synonyms)
 - ◆ Partial chemical name
 - ◆ Chemical formula or formula elements
- ◆ Create customized lists to capture proprietary and company specific information:
 - ◆ **Private lists** can be created for use by individual users. They are available only to a particular user of the software
 - ◆ **Public lists** can be created for use throughout an entire organization. They are available to the entire organization covered by a LOLI Desktop License

- ◆ Conduct integrated LOLI queries
- ◆ View expanded generic link information
- ◆ Simultaneously view the list header and the list content
- ◆ Generate change reports by CAS number or by list
- ◆ Filter search results and list data
- ◆ Easily identify deleted CAS numbers in FindCAS results
- ◆ Control access for multiple users

LOLI Desktop is available via DVD-ROM as an annual subscription for multiple-users or as a corporate license.

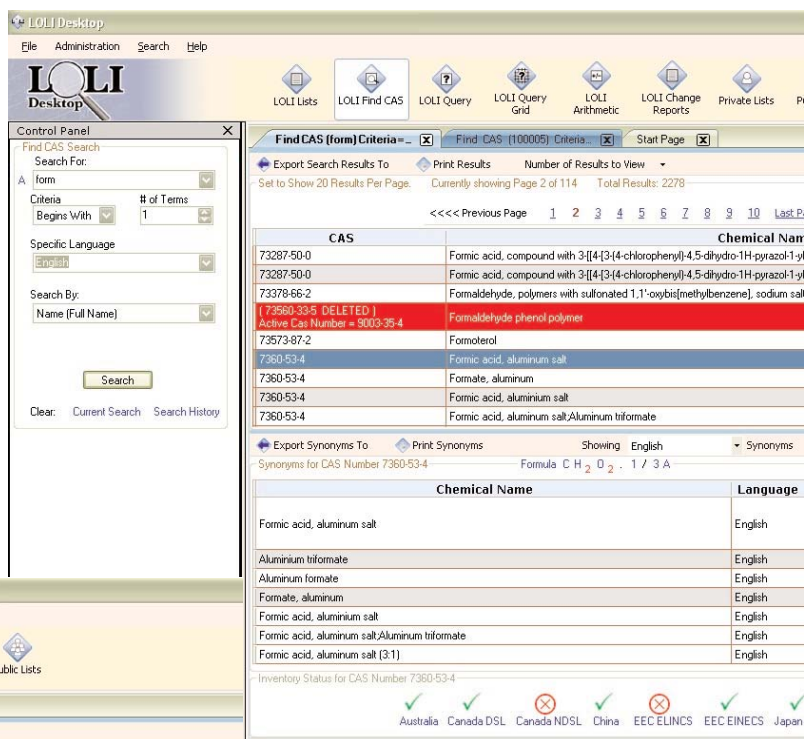

The program is available in two versions:

◆ **LOLI Desktop – Personal edition:**

Runs on a single workstation. This configuration accesses a local copy of the database.

◆ **LOLI Desktop – Enterprise edition:**

Uses a client/server setup. This configuration allows multiple users to access a centralized copy of the database and share public lists. LOLI Enterprise also has the ability to report changes to both lists and CAS numbers in the LOLI database over time.
